LISTING PROPOSAL

# WHY COINSTORE?

Ranked #19 globally, we're challenging industry giants who've ruled the space for over a decade.

With 1,200,000+ daily active users and a 9% month-on-month growth rate, we're on a meteoric rise.

We've launched 65 projects on our IEO launchpad, each raising an average of \$1M within just 24 hours.

With 42% of users from Southeast Asia and 12% from the Middle East, we're the strongest exchange player across Asia.

With 1500+ projects listed, we go beyond listings—delivering strategic marketing within our community to drive real traction.

We've signed MOUs with government bodies in Indonesia (KADIN) and the Philippines govt agency, marking strong institutional partnerships in Southeast Asia.

# Listing Criteria

## Minimum Liquidity Deposit :

**5,000 USDT and 5,000 USDT** worth project tokens.  
( It comes with unlimited top-up)

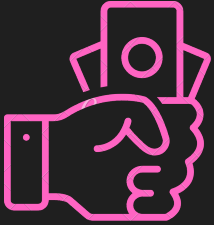

## Liquidity Withdrawal Limit :

Upto **70%** of total circulating supply on coinstore.

## Spread Requirement:

Project must maintain a **±1% spread** during market making; 3–6 warnings will be issued before action is taken.

## Listing Fees:

Listing fee starts from **15,000 USDT**

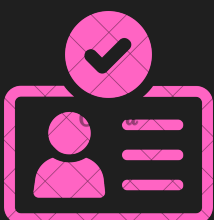

This fee covers the extensive marketing, platform integration, and ongoing maintenance we provide to ensure your project gets maximum visibility and long-term support within our ecosystem.

## Listing timeline:

For public chains: **7–15** working days

For native chains: **2–3** weeks from the announcement date

## KYC/KYB Requirement:

**KYC** is mandatory and can be completed under the founder's name or as a **KYB** under the registered company. Choose the option that best suits your project's structure and compliance needs.

# CASE Studies

## IEO CASE STUDY

We successfully launched Zetrix on Coinstore Launchpad, raising **\$6M** with **1,000+** participants.

The token saw a **2X** price surge within 15 days of listing.

Users earned a solid **143%** ROI in the first round.

The second IEO round raised an additional **\$1M**, proving strong investor confidence. We've launched over 56 projects successfully.

To know more : ([CLICK HERE](#)).

With over **1,500+** tokens listed, tier-1 projects saw a **20–40%** average increase in trading volume. Newly listed tokens gained strong traction, user growth, and market cap boost.

Our listings have consistently helped projects scale visibility and adoption. Post-listing, entry into other CEXs becomes significantly easier and more credible. For case studies: ([CLICK HERE](#)).

## LISTING CASE STUDY

## CAMPAIGNS CASE STUDY

Our campaigns leverage **500+ top-tier KOLs** and **200+ influencers** for maximum reach.

This drives strong userbase growth, Twitter engagement, and Telegram activity. We don't just boost volume — we build active, engaged communities. Our strategy ensures both market traction and social media visibility. To learn more ([CLICK HERE](#)).
